# How to Use Freading on your Android Tablet

1) In order to download eBooks from Freading.com onto your tablet you will need to have an Adobe ID. If you do not have an Adobe ID you will need to create one at this point. Go to https://www.adobe.com/account/sign-in.adobedotcom.html. You can do this from your tablet or from a computer.
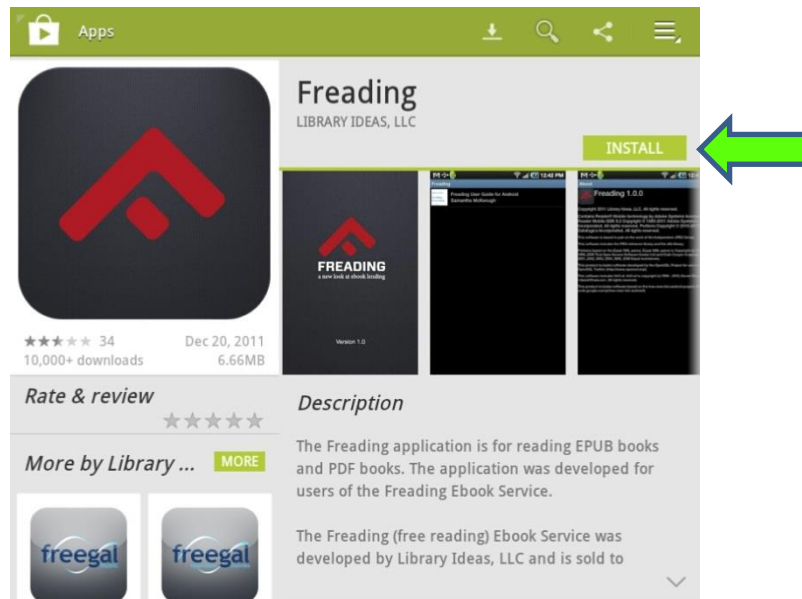

2) Now click 'Don't have an ID?' The reason you need an Adobe ID is to authorize your device to receive books from Freading. It is basically a way for Freading to make sure you are not copying the books and selling them.

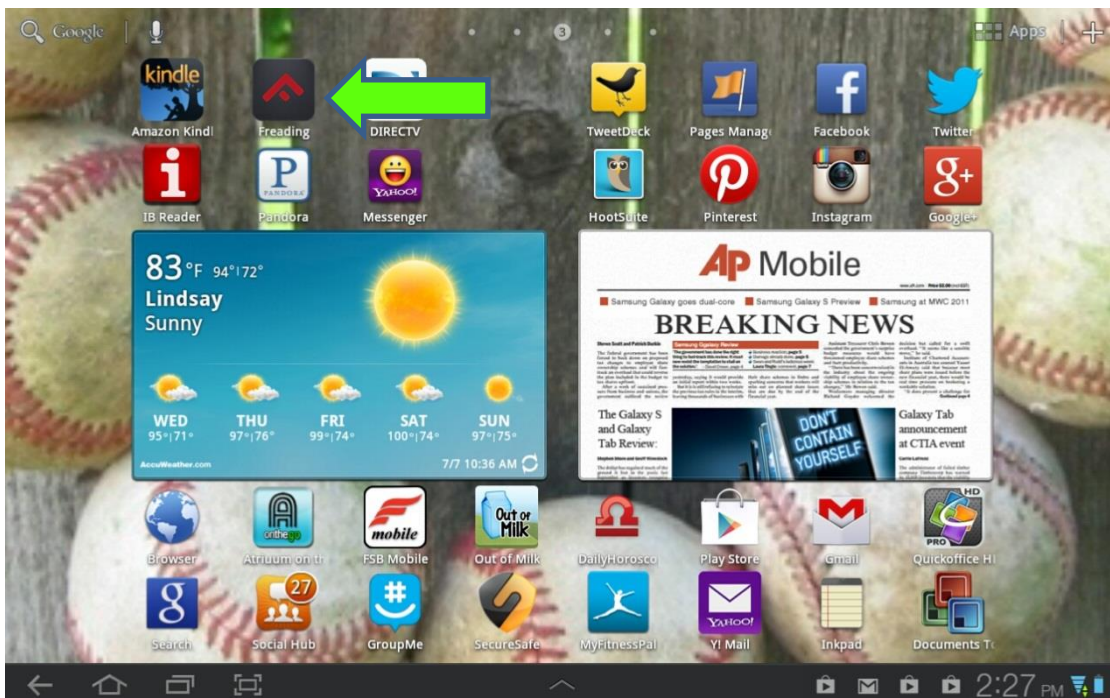

3) Fill out the form and click 'Create.' Be sure to write down your Adobe ID (which is your email address) and your password because you will need to remember them later!
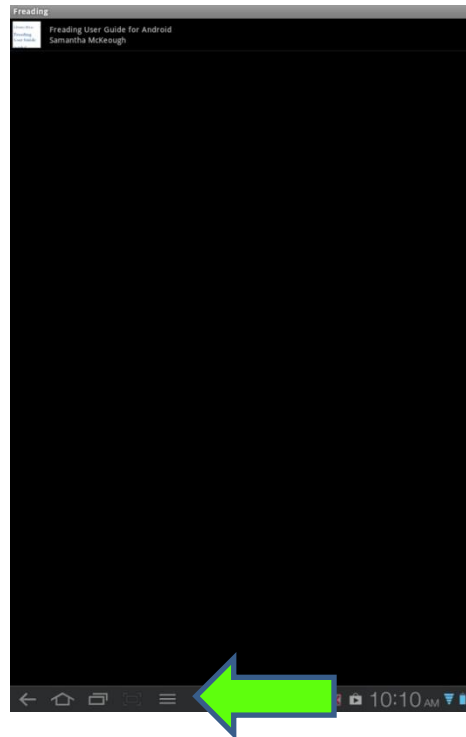

4) Download the Freading app to your tablet. Go to the Android app market or Google Play, search for Freading, and tap 'Install.'

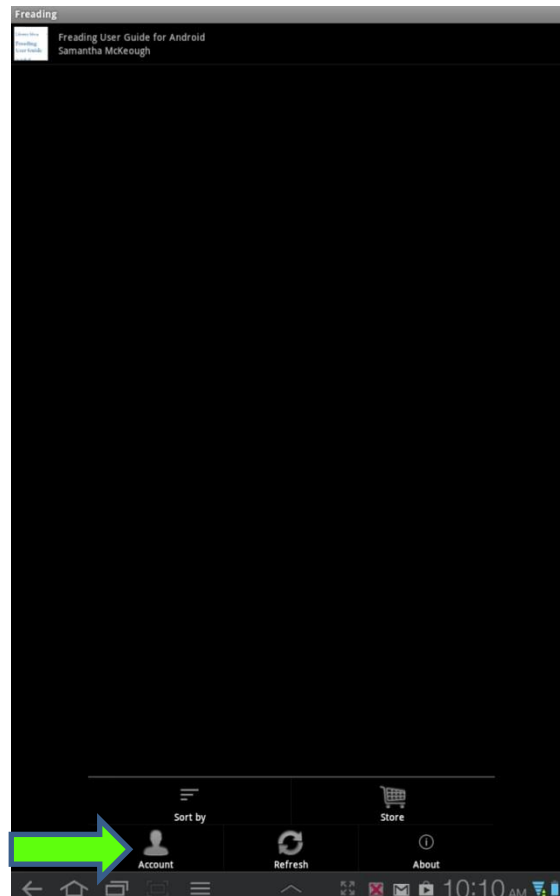

5) Once it finishes installing, tap the app to get started.

6) When you open the app you will see three horizontal lines at the bottom of your screen. Tap these lines.

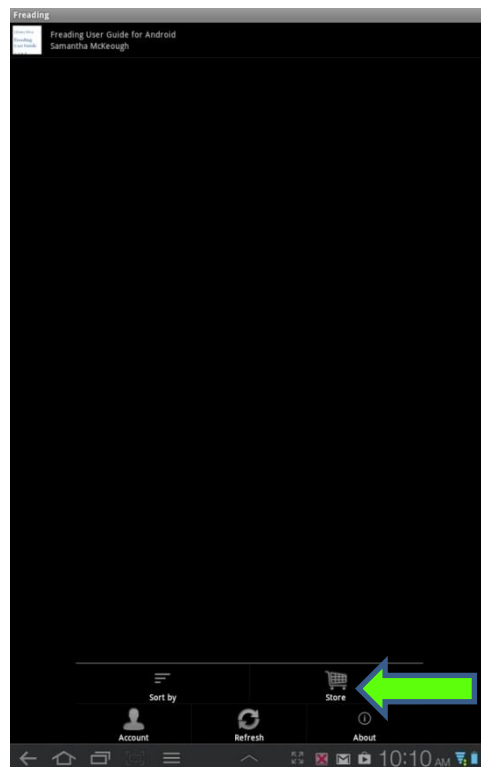

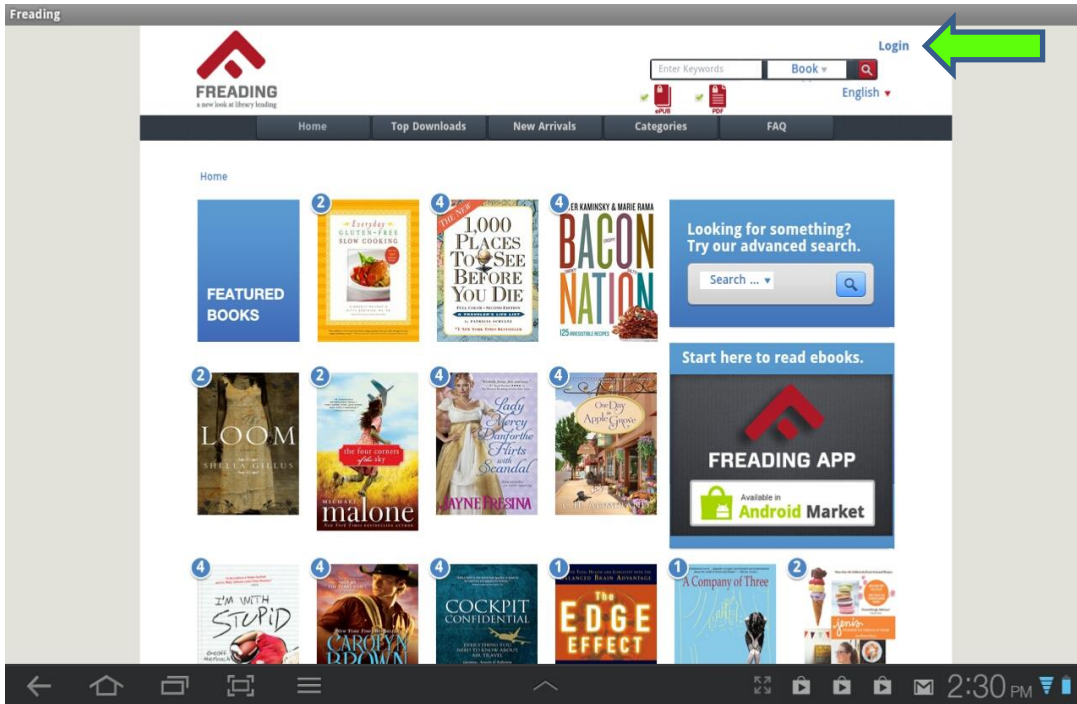

7) Next tap 'Account.'

8) Enter your Adobe ID and password you just created and tap 'Activate.' Now you are ready to download eBooks! Tap the back arrow to get back to the home screen.

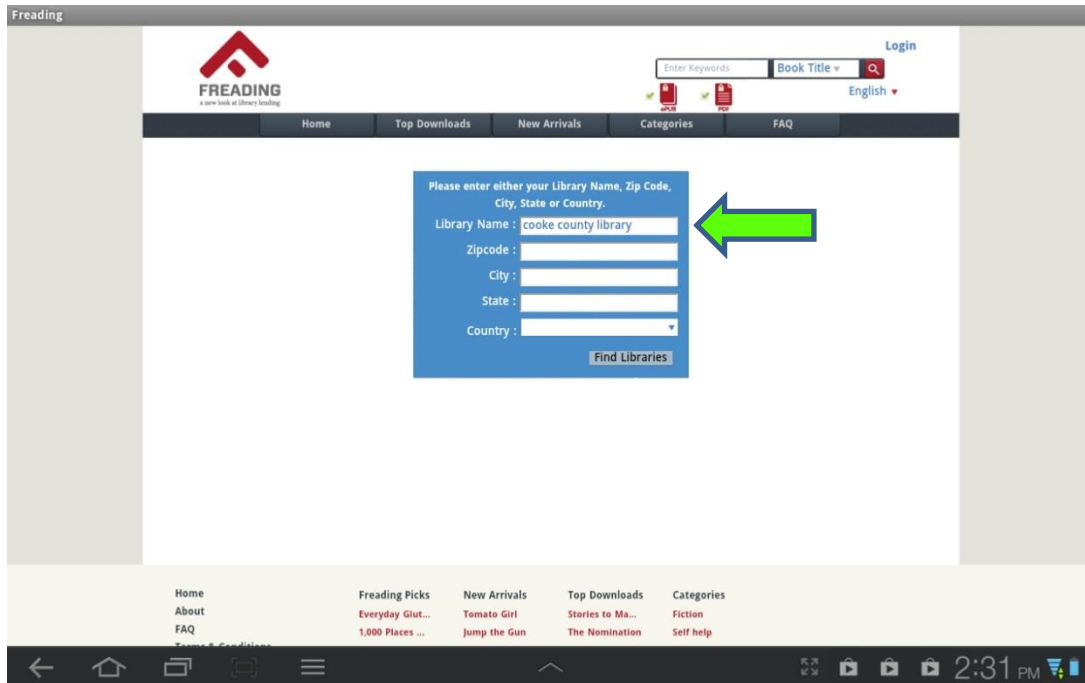

9) Now tap the three horizontal lines again and then tap store. This will take you to the Freading store where you can download eBooks.
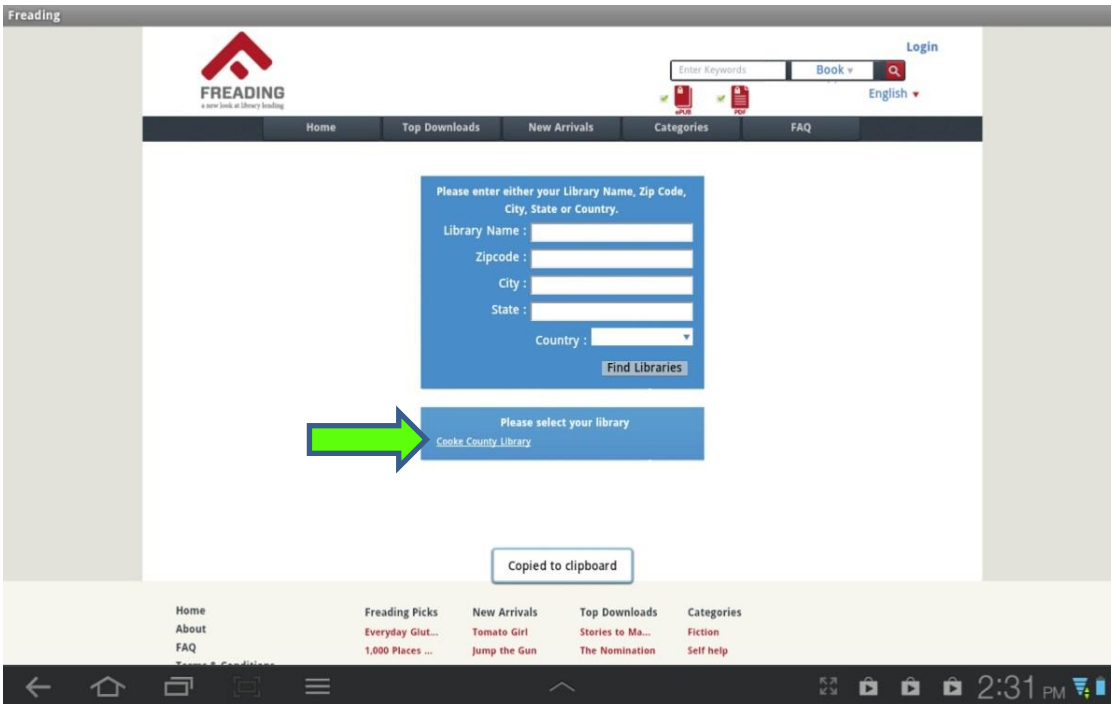

10) Tap 'Login' in the top right hand corner of the screen.

11) Enter Cooke County Library in 'Library Name' and tap Find Libraries. This is not case sensitive.
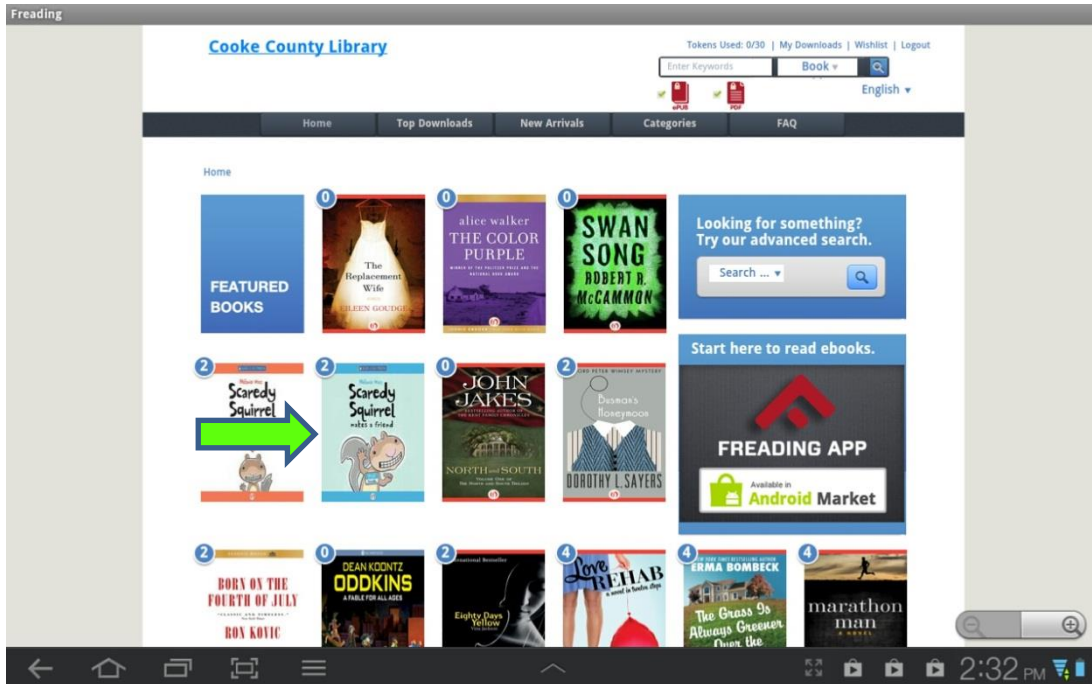

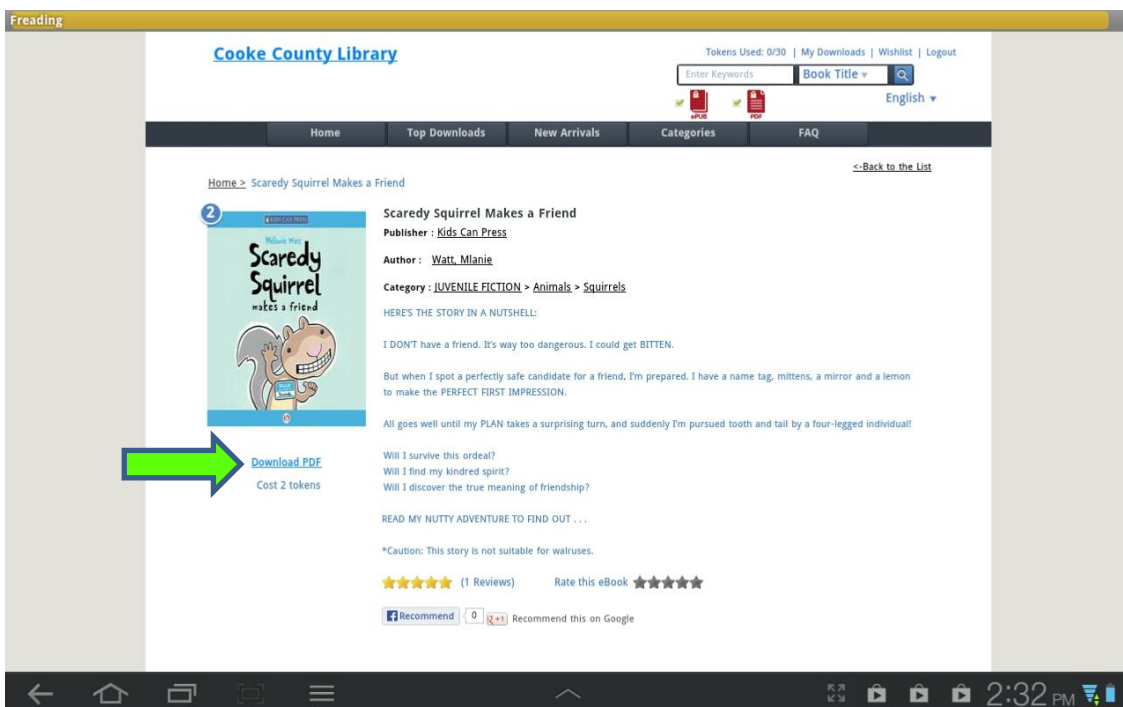

12) Tap 'Cooke County Library' when it comes up.

13) Enter your library card number found on the back of your library card.

14) Browse the selection of books. Every week you are allotted 10 tokens to use and each book costs a certain number of tokens to checkout. For example, "Scaredy Squirrel Makes a Friend" costs 2 tokens to checkout. When you have made your selection, tap the book you would like to checkout.

15) Tap 'Download PDF.'

16) When the book finishes downloading, the Freading app should automatically open up.
Your book should be in your Freading library and ready to read. Tap the book to begin reading.

17) Your book should look like this when it is opened up. Happy reading!
